Tianyu Wu

Product Designer

Shanghai, China | +86 15800672106 | wutianyu328@163.com | Wechat: wutianyu5003 | LinkedIn: https://www.linkedin.com/in/tianyuwu-adventure/

About Me

Product Designer with 4+ years of experience designing AI-powered products, SaaS platforms, and complex digital workflows, building on 8 years of professional design experience across digital, spatial, and visual design. Specialized in human–AI interaction, intuitive workflows, and translating complex technology into clear, trustworthy experiences. Experienced in collaborating with product and engineering teams from concept to production.

Core tools & skills: Product Design · UX/UI · AI Product Design · Human–AI Interaction · System Thinking · UX Research · Accessibility · Figma · Prototyping · Visual & Motion

Professional Experience

Microsoft Shanghai, Hybrid May 2025 – July 2026

Product Designer

GitHub Copilot

- **End-to-End Product Design:** Designed AI-assisted workflows for GitHub Copilot across Eclipse and IntelliJ, translating emerging AI capabilities and technical constraints into intuitive, production-ready experiences.
- **User Journeys & Interaction:** Designed end-to-end interaction patterns for AI-assisted coding and agentic workflows, improving transparency, user control, feedback, and recovery across complex scenarios.
- **Cross-Platform Collaboration:** Partnered with Product, Engineering, and Research teams to define reusable UX patterns across IDE ecosystems, balancing platform conventions with a consistent Copilot experience.
- **Rapid Iteration & Design Systems:** Iterated through prototypes, technical discussions, and production feedback; contributed reusable interaction patterns, visual standards, and accessibility improvements across platforms.

XENIRO Technology Information Co., Ltd, Shanghai Feb 2023 – Dec 2024

UX Designer

- **0-to-1 SaaS Product:** Led end-to-end UX for an AI-powered medical imaging platform, translating complex clinical workflows and technical requirements into intuitive experiences for healthcare professionals.
- **Research & Validation:** Conducted 30+ interviews and usability tests; redesigned onboarding and conversion flows, contributing to 4% higher subscription retention and 0.5% conversion growth.
- **Systems & Complex Workflows:** Established reusable UI patterns and designed multi-step workflows across SaaS, on-premise, and federated-learning environments.

Lapu Design Studio, Shanghai July 2021 – Dec 2022

UX Designer, self-employed

- **End-to-End Product Delivery:** Designed and launched a custom WeChat Mini Program from research and concept definition through interaction design, high-fidelity prototyping, and developer handoff.
- **Interaction & Visual Design:** Created high-fidelity motion prototypes to communicate interaction details and accelerate implementation; delivered visual identity and brand applications for a restaurant project.
- **Brand VI Design**: Led a restaurant branding project covering visual identity, logo, packaging, environmental applications, and promotional materials.

SWA Group (USA) & GN Architects (China) 2018-2021

- Earlier Experience: Worked across leading landscape architecture firms in the U.S. and China, contributing to international competitions and large-scale urban projects through visualization, spatial analysis, and design documentation.

Education

University of Georgia, USA | Master of Landscape Architecture 2015 - 2017

Northeast Forestry University, China (211) | Bachelor of Landscape Architecture 2011 - 2015
